

BioPure DHA™ Product Details

Natural

Natural oil format is preserved throughout processing

Rich DHA Content

Typically 25% naturally occurring DHA

Controlled Sourcing

Limited species fished from isolated waters ensure minimal exposure to potential contaminants
Pure, consistent raw materials secure a pure, consistent final product

Gentle Refining

Purifies BioPureDHA™ without the use of harsh chemicals or structure altering processes
Contaminant risk is further reduced by sourcing oil from only the fish heads
Includes deodorization for negligible odor

Cold-Extracted

Proprietary extraction in a temperature controlled environment
Reduces the risk of oxidation
Minimizes fishy odor and flavor
Optimizes freshness

Purity & Potency Guaranteed

Third party tested to AOCS protocols
BioPureDHA™ exceeds CRN recommendations and international standards
Proposition 65 compliant*

Source to Shelf Control

Vertical integration from the exclusive sourcing to refining, bottling and labeling ensure purity is preserved from source to shelf

Minimum 1 Year Stability

Optimal freshness in each dose

ISO 9001 Approved

GMP and European HACCP compliant process
Consumer confidence in quality

Condition Specific

DHA is an essential building block of the brain
Appropriate for memory, learning, mood, cognitive, eye health, and neural development supplements

Applications

Available alone as a naturally rich DHA fish oil or as an ingredient to boost DHA content in condition specific formulas
Softgels, flavored softgels, liquid combinations, and bulk oil
